VHF/UHF Antenna," page 61), but I just can't get it to ...

unintentionally misleading Because the 1/2-wavelength radiator is not a feed line, it has a much higher velocity factor than that of twin lead The velocity factor of copper wire is about 0.95, so the 1/2-wave radiator section should be $38 \frac{3}{8}$ inches long

Read and listen. I can't stop doing extreme sports

out more about extreme sports, so I spoke to one of New Zealand's most eccentric sportsmen, Warren Shepherd Warren said 'I started doing extreme sports when I was at school My first one was bungee jumping, over the Shotover River near Queenstown I jumped 120 m, and it was incredible! I still love bungee jumping'

Round Ball Loads - Castpics

hunting big game It just doesn't work like that as normally you will not be shooting in an area where you're hunting large game and also, ball loads in most cases shoot to a different point of impact than a hunting load As with any cast bullet, the round ball must fit the bore to get any accuracy out of it In my experience, most round

to others will get us out can begin with simple actions."

not for Step Nine, I do not think I could have gone past the weight of that guilt I learned how to let go of most of my guilt and shame through forgiveness—not just from those I owed amends to, but to those who harmed me as well, so that I could let go of my resentments I learned that it is okay to forgive myself and that I do not have to
