TWO THEORIES ON THE USE OF AIR POWER: WARDEN VS. PAPE

Warden's book, The Air Campaign, is the practitioner of the operational art, while Robert Pape seems to have written for the academic audience in Bombing to Win, this reviewer was compelled by Warden's argument that strategic use of air power is worthwhile—and left a bit

Bombing To Win Air Power And Coercion In War Cornell ...

In "Bombing to Win: Air Power and Coercion in War," Pape shows that strategic airpower has never been the panacea many theorists and war planners had hoped and believed it would be. And, he argues, the advent of advanced precision-guided technology does little to change that fact.

Strategic Bombing in World War II

STRATEGIC BOMBING IN WORLD WAR II AIR POWER had a mighty vindication in World War II. But it was Mitchell's conception of it—"anything that flies"—rather than Douhet's that was vindicated. It was in tactical employment that success was most spectacular and that the air forces won the unqualified respect and admiration of the older services.
